AECC-1

A- Environmental Sustainability (3 Credit)
B- Swachha Bharat Abhiyan Activities (2 Credits)

Each credit requires 10 hours of teaching-learning for theory and 20 hours for practical assignment field work.

A-Unit -1 Environmental ethics & ecosystem: Concept of sustainable development with reference to human values in western and Indian perspective, sustainable development & conservation of natural resources (Nature, factors, structure, development and people participation) development, environment- rural and urban, concept of Ecosystem.

A-Unit -2 Development and its effect on environment: Environment Pollution - water, air, noise etc. due to Urbanisation, Industrial civilization, Concept of Global Warming, Climatic Change, Green House Effect, Acid rain, Ozone layer depletion. Menace of encroachment of exotic plants particularly parthenium and trees with special reference to impact on habit & habitat on indigenous flora & fauna.

A-Unit -3 Concept of Bio-diversity and its conservation: Environmental Degradation and conservation. Govt. Policies, Social effects and role of social reforms in this direction. Role of science in conservation of environment concept of Three ‘R’ (reduce, reuse, recycle). Need of environmental education and awareness programme and ecological economics.

B-Unit -4 Swachha Bharat Abhiyan: The concept of Swachhata as personal, Gandhian approach towards social and environmental moral values & concept of swachhata and its relation to moral upgradation of society and freedom struggle. Awareness Programme related to Swachhata. Role of ‘Swachhagrahis’ in Swachha Bharat Abhiyan.

Sanitation and hygiene, why sanitation is needed, sanitation and human rights, plantation, value of nature, concept of community participation and role of state agencies. Case study of Sanitation, effects of cleanliness, diseases - infectious and vector – born Idea of spread of diseases through body and other biological fluids and excreta.

B-Unit-5 Assignment/Practical/field work based on unit-4

or

Alternative to unit-4 and unit-5 a student can also enrol for Swachha Bharat Internship programme of MHRD.
AECC – 2

Human Values and Professional Ethics (3 Credits)

Gender Sensitization (2 Credits)

(One credit requires ten hours of theory and twenty hours of practical/assignment/field work)

Unit – 1: Variety of Moral Issues, Principals of Ethics and Morality:

Unit – 2: Holistic approach to corporate ethics:

Unit – 3: Professional Ethics:
Augmenting Universal Human Order, Characteristics of people-friendly and eco-friendly production, Strategy for Transition from the Present State to Universal Human Order, At the Level of Individual- as Socially and Ecologically Responsible Technologists and Managers, At the Level of Society- as Mutually Enriching Institutions and Organizations. Case studies of typical holistic technologies and management patterns.

Unit – 4: Gender – An Overview:
Gender: Definition, nature and evolution, culture, tradition, historicity; Gender spectrum: biological, sociological, psychological conditioning; Gender based division of labour – domestic work and use value.

Unit – 5: Gender – Contemporary perspectives
Gender justice and human rights: international perspectives, Gender : constitutional and legal perspectives, media & gender, Gender: emerging issues and challenges.
## Generic Elective (GE) course

### Course title: Graphic Designing

**Course code:** GE-1  
**Credit 5**  
(There shall be 5 units each consisting of one credit)

**Course offered in:** Semester - IV

### Course content:

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
</table>
| I    | HTML5 and CSS3:  
General Introduction to Internet and WWW, Text tags, Graphics, Video and Sound Tags, Link and Anchor Tags, Table Tags, Form Tags, Miscellaneous tags (layers, image maps etc), Events, Web sockets, CSS3, API, Example Applications, etc. |
| II   | PHP Programming and MySQL:  
Programming constructs, Variable/Constants, GET & POST, Files, User defined Functions, BuiltIn Functions, Cookies, Sessions, Error Handling, MySQL tools and its integration, AJAX, XML, Object Orientation, Form, Facebook and Paypal Integration, Example Applications. |
| III  | Java script and jQuery:  
Java script – Basic data types, control structures, functions, arrays and objects, events, html DOM, cookies, error handling, multimedia, animation, Example Applications, jQuery – Basics, Selectors, Attributes, DOM, Events, AJAX, CSS, UI, Plug-ins. |
| IV   | Content Management and SEO:  
| V    | Assignment / Field Work based and Unit I, II, III and IV. |

---

*Note: Students who enrolled for WEB DESIGNING as AEC in Semester II will not be allowed to take Graphic Design as a GE course in Semester IV*
## Generic Elective (GE) course

### Course title: Inclusive Policies

| I    | Conceptual Aspects of Human Rights  
  a. Meaning and Concept of Human Rights  
| II   | Evolution of the Concept of Human Rights  
| III  | Diversity, Multiculturalism and Human Rights  
| IV   | Theoretical aspects of Human rights.  
  a. Theories of Human rights-Liberal Perspective-Locke, Rousseau, J.S. Mill, Marxian Perspective-Marx, Gramasci  
  b. Feminist Perspective of Human Rights. |
| V    | Assignment / Field Work based and Unit I, II, III and IV. |

[Signatures: 20/06/2018]
Generic Elective (GE) Course  

Family Management  

(One credit requires ten hours of theory and twenty hours of practical/assignment/field work)

Unit 1: Concept of typical Indian family:

Indian society and Indian family, importance of relationship within family, similarities and dissimilarities in between Indian and western family, definite role of family members.

Unit 2: Food production and cleanliness:

Cooking - art or science, personal grooming, hygiene & uniform, Do’s and don’ts while working in the kitchen, Domestic Food Production, nutrition- Balanced Diet and its function, effect of heat on fat, carbohydrates, proteins, vitamins and minerals. Cholesterol and trans fats and related diseases. Disease producing microbes.

Unit 3: House keeping:

Equipment handling, care & cleaning & identification of cleaning equipments; Care, cleaning & polishing of surfaces – metals, glass, floor, carpets; Paints, daily cleaning of rooms and bath rooms.

Unit 4: Safety & health care:

Unit 5: Importance of communication and care in family:

Leadership in family, communication gap between generations, significance of soft-skill, Indian laws related to family problems, understanding and misunderstanding within the family members and among close relatives, in-laws etc. Necessity of small investments for family members.
## Ability Enhancement Course (AEC) / Skill Enhancement Course (SEC)

**Course title:** Computers & ICT  

<table>

</table>
| I    | Basics of ‘Computer System’:
  *What is a computer? Computer System components – Hardware and Software. Introduction to the terms - Motherboard, SMPS, Processor, RAM, ROM, Ports and Cards. Broad overview of different makes of these components, their availability in the market and their prices.* |
| II   | Basics of ‘Operating Systems’:
| III  | Information Management:
| IV   | SSD (Special Skill Development)
  *Detailed study on any one of the following three using Spoken Tutorial:
    a. Latex
    b. Accounting software
    c. Spread sheet using Spoken tutorial
    d. Matlab/Scilab* |
| V    | Networking Basic:- Network topologies, LAN, MAN, WAN, TCP/IP, Knowledge of Networking hardware, Service/Client, Interface. Internet Connectivity |
| VI   | Assignment / Field Work based and Unit I, II, III and IV. |
### Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

**Course title:** Web Designing  
**Course code:** AEC-1/SEC-1  
**Credit:** 5  
(there shall be 5 units each consisting of one credit)

**Course offered in:** Semester-II  
**Course description:** This paper is designed to enable student to learn basic components required to design and manage a website. The emphasis is given on hands-on training so as to enable students to design their own website.

**Course objectives:**
To expose students to the technology of website design and to introduce various tools and languages required for dynamic and creative design of state-of-the-art web sites.

**Course content:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
</table>
| I    | HTML5 and CSS3:  
General Introduction to Internet and WWW, Text tags, Graphics, Video and Sound Tags, Link and Anchor Tags, Table Tags, Form Tags, Miscellaneous tags (layers, image maps etc), Events, Web sockets, CSS3, API, Example Applications, etc. |
| II   | PHP Programming and My SQL:  
Programming constructs, Variable/Constants, GET & POST, Files, User defined Functions, Built-in Functions, Cookies, Sessions, Error Handling, MySQL tools and its integration, AJAX, XML, Object Orientation, Form, Facebook and Paypal Integration, Example Applications. |
| III  | Java script and jQuery:  
Java script – Basic data types, control structures, functions, arrays and objects, events, html DOM, cookies, error handling, multimedia, animation, Example Applications, jQuery – Basics, Selectors, Attributes, DOM, Events, AJAX, CSS, UI, Plug-ins. |
| IV   | Content Management and SEO:  
WordPress – Installation, Settings, Categories, Posts, Media, Pages, Tags, Links, Comments, Plugin, theme.  
| V    | Lab/Assignment/hand-on training based on Unit I, II, III and IV |

**Learning outcomes:**
On completion of this course, the students would:
1. Have a strong foundation to undertake specialized courses in the field of web designing.
2. Develop their own website and manage it.

The laboratory work will consist of 9-15 Experiments:
1. Practicing basic HTML tags, text tags test styles, paragraph styles, headings, lists, Forms, Tables, Link and Anchor Tags etc.
2. Including graphics, video and sound in web pages, Layers & Image Maps
3. Creating animated Gifs, simple flash animations
4. Cascading Style sheets
5. Creating and browsing XML database
6. Installing web server, setting PHP, Creating client and back end script with GET & POST methods (connecting HTML).
7. MySQL commands/tools and this integration with PHP
8. Exercises covering basic introduction to JavaScript and jQuery

### Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

**Course title:** Derivatives and Risk Management  
**Course code:** AEC-1/SEC-1  
**Learning Hours:** 50  
**Course offered in:** Semester 2

**Course description:** Every investment activity entails an element of risk, even bank fixed deposits once considered to be free from risk are subject to risk like interest rate, inflation and default risk. Therefore, managing risk is one of the Prime Concern for every investor. At the same time, Speculators feel the requirement of such a financial instrument that can help in having gain at a low cost. The answer to all these is understanding and practicing DERIVATIVES.  
The derivatives are most modern financial instruments in hedging risk. The individuals and firms who wish to avoid or reduce risk can deal with the others who are willing to accept the risk for a price. A common place where such transactions take place is called the 'derivative market'.

**Course Objectives:**
1. To develop skills among the students who are planning to pursue their career in Finance and Banking Sector.
2. To develop knowledge among the students to enable them to take decision under the most difficult situation led by uncertainties in the competitive business world.

**Course Content:**

**Learning outcomes:**
By the end of the course students should be able to understand the mechanism of managing and handling risk which explicitly addresses the uncertainties of the competitive corporate world of 21st century.

**A Few Topics for Case Studies:**
Risk management as Decision-making Process in the Banking Sector-Risk and Uncertain business world-managing risk under the conditions of uncertainty- investment strategy and Risk- Impact of Systematic risk in project-management-importance of the knowledge of various types of risk associated with the investment-Hedging Strategy for Portfolio-delta Hedging-static delta Hedging and Dynamic delta Hedging-theta, gamma, Vegas and Rho Hedging.

**Assignments:**
Each student has to prepare a dissertation on any topic related to any of the Unit. The dissertation should include the following heads:
1. Preface
2. Definition
3. Review of Literature
4. Methodology
5. Observations/Case Study
6. Relevance
7. Decisions
8. Conclusions
9. Reference

**List Of Books:**
4. Risk Management by Indian institute of Banking
5. Risk Management and Financial Institutions by John C. Hull-Published by John Wiley and Sons, New Jersey.
6. Risk Management by Paul Hopkin-Published on Amazon.com
8. Essentials of Risk Management by Michel Crouhy-Publisher McGraw Hill Education.
Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

Course title: Solid Waste Management

Course code: AEC-I/SEC-I
Credit 5
(there shall be 5 units each consisting of one credit)

Course offered in: Semester-II

Course description: The course would cover-general introduction including definition of solid wastes—municipal waste, biomedical waste, hazardous waste, e-waste; legal issues and requirements for solid waste management; sampling and characterization of solid waste.

Course objectives:
1. Understanding of problems of municipal waste, biomedical waste, hazardous waste, e-waste, industrial waste etc.
2. Become aware of Environment and health impacts of solid waste mismanagement

Course content:

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>General introduction including definitions of solid waste including municipal, hospital and industrial solid waste; E-wastes; legal issues and requirements for solid waste management; Solid waste management rules, 2016.</td>
</tr>
<tr>
<td>II</td>
<td>Health and environmental issues related to solid waste management</td>
</tr>
<tr>
<td>III</td>
<td>Methods of waste collection, collection techniques, waste container compatibility, waste storage requirements, transportation of solid wastes</td>
</tr>
<tr>
<td>IV</td>
<td>Treatment and disposal techniques for solid wastes—composting: Composting, Vermicomposting, Autoclaving, Microwaving, Incineration, Non-incineration thermal techniques, Landfilling</td>
</tr>
<tr>
<td>V</td>
<td>Source Reduction, Product Recovery and Recycling Recovery of Biological Conversion Products: Composts and Biogas Incineration and Energy Recovery Integrated Waste Management (IWM)</td>
</tr>
</tbody>
</table>

Learning outcomes:
After completion of the course students should be able to characterize solid waste; analysis of hazardous waste constituents; understand health and environmental issues related to solid waste management; apply steps in solid waste management-waste reduction at source, collection techniques, materials and resource recovery/recycling, transport, optimization of solid waste transport, treatment and disposal techniques

Practical:
1. Awareness about disposal of different wastes in waste-bin (Concept of disposal of Biodegradable, Non-biodegradable and bio hazardous wastes in different coloured bins)
2. Method of composting
3. Method of vermicomposting
4. Autoclaving
5. Bio-gas production

20/06/2018
Assignments:

1. Global and Indian issues related to Solid wastes
2. Health issues related to solid waste management
3. Environmental issues related to solid waste management
4. Disposal methods for biodegradable wastes
5. Disposal methods for Non-biodegradable wastes
6. Disposal methods for Recyclable wastes
7. Biomedical wastes and their disposal methods
8. E-wastes and their disposal
9. Landfilling method of solid waste disposal
10. Vermicomposting method of solid waste disposal etc.
### Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

<table>

</tr>
</tbody>
</table>

**Course offered in:** Semester- II

**Course description:** The course would cover-general introduction about fungi including a general life cycle of Mushroom, Edible and Poisonous mushroom, Different aspects of mushroom cultivation in relation to environment, Nutritional value of mushrooms, Economic importance and health benefits of mushroom. Identification of mushroom by spore print method. Production method of edible mushrooms – Button and oyster mushroom; Preservation method for mushroom fruiting body- drying. Diseases of mushroom caused by bacteria, fungi and viruses and its control.

**Course objectives:**
1. Cultivation methods for edible varieties of mushroom.
2. Preservation method for mushroom fruiting body as well as its spore and mycelium.
3. Awareness of health benefits of mushroom consumption.

**Course content:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>General introduction about fungi including a general life cycle of Mushroom; Edible and Poisonous mushroom; Different aspects of mushroom cultivation in relation to environment; Economic importance and health benefits of mushroom.</td>
</tr>
<tr>
<td>II</td>
<td>Production method of some edible mushroom – Button mushroom (<em>Agaricus bisporus</em>), oyster mushroom (<em>Pleurotus sajor-caju</em>).</td>
</tr>
<tr>
<td>III</td>
<td>Preservation method for mushroom fruiting body-drying; Diseases on mushroom caused by bacteria, fungi and viruses and its control.</td>
</tr>
<tr>
<td>IV</td>
<td>Isolation and culture of spores, culture media preparation. Production of mother culture, mother spawn, commercial spawn.</td>
</tr>
<tr>
<td>V</td>
<td>Different methods of maintenance of mushroom culture and its strain preservation</td>
</tr>
</tbody>
</table>

**Learning outcomes:**
After completion of the course students should be able to understand the cultivation methods for the production of mushrooms viz. Button, Oyster; diseases on mushroom and its remedial measure; preservation method for mushroom fruiting body and its spore as well as mycelium; social, economical, environmental and health benefits of mushroom consumption.

**Practical:**
1. Production of mother culture by spore culture.
2. Cultivation of Oyster mushroom.
3. Spore print and microscopic examination of mushroom spore and mycelium.

**Assignments:**
1. Edible mushroom cultivated in India
2. Poisonous mushroom.
3. Cultivation method for Button and Oyster mushrooms.
5. Mushroom spawn production methods etc.
## Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

### Course title: Biofertilizer Technology

**Course code:** AEC-1/SEC-1  
**Credit:** 5  
(There shall be 5 units each consisting of one credit)

### Course offered in: Semester- II

**Course description:** The course would cover general introduction about different types of biofertilizers. Edible and Different aspects of biofertilizers production in relation to environment protection, soil enrichment and other benefits. Production methods of different types of biofertilizers.

### Course objectives:

1. Structure and characteristic features of different microorganisms used as biofertilizers.
2. Cultivation methods for different types of biofertilizers.
3. Awareness of environmental and agricultural benefits of biofertilizers.

### Course content:

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
<tbody>
<tr>
<td>I</td>
<td>Introduction to biofertilizers-Structure and characteristic features of the following biofertilizer organisms: Bacteria: <em>Azotobacter</em>, <em>Rhizobium</em>, <em>Cyanobacteria</em>; <em>Nostoc</em>.</td>
</tr>
<tr>
<td>II</td>
<td>Nitrogenous Biofertilizers: Bacteria - Isolation and purification of <em>Azotobacter</em>, mass multiplication <em>Azotobacter</em>, formulation of inoculum of <em>Azotobacter</em>. Methods of application of <em>Azotobacter</em> inoculants. Isolation and purification of <em>Rhizobium</em>, mass multiplication and inoculum production of <em>Rhizobium</em>, Methods of application of <em>Rhizobium</em> inoculants.</td>
</tr>
<tr>
<td>III</td>
<td>Isolation and purification of Cyanobacteria- Mass multiplication of cyanobacterial bioinoculants - Trough or Tank method, Pit method, Field method; Methods of application of cyanobacterial inoculum. <em>Azolla</em> - mass cultivation and application in rice fields.</td>
</tr>
<tr>
<td>IV</td>
<td>Biofertilization processes-Decomposition of organic matter and soil fertility and vermicomposting.</td>
</tr>
<tr>
<td>V</td>
<td>Biofertilizers - Storage, shelf life, quality control and marketing.</td>
</tr>
</tbody>
</table>

### Learning outcomes:

After completion of the course students should be able to understand the cultivation methods for the production of different types of biofertilizers and their benefits.

### Practical:

1. Isolation and identification different types of microorganisms used as bio-fertilizers.
2. Mass Cultivation of *Azotobacter*.
3. Mass cultivation of *Nostoc*.

### Assignments:

1. Biofertilizers cultivated in India
2. Environmental benefits of biofertilizers.
3. Agricultural benefits of biofertilizers.
4. *Azotobacter* as biofertilizer
5. *Rhizobium* as biofertilizer
6. *Cyanobacteria* as biofertilizer
7. *Azolla* as biofertilizer etc.
### Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

**Course title:** Environmental Law and Policy  
**Course code:** AEC-1/SEC-1  
**Credit:** 5  
(there shall be 5 units each consisting of one credit)

**Course offered in:** Semester- II

**Course description:** Law and policy plays a major role in the conservation and management of natural resources as well as pollution control. This course intends to introduce the students to the vast field of Environmental Law and Policy. The course would be divided into three broad areas. The first part would cover the basic concepts and principles of Environmental Law. This would include judicial precedents, which now forms an essential part of environmental jurisprudence. The second part would be divided into specific introductory modules on forests and wildlife including bio-diversity related laws; Air and Water related laws including mega projects and marine laws; and laws relating to hazardous substances. The third part would discuss the role of judiciary including the National Green Tribunal in protecting the environment.

**Course objectives:**
1. To provide an overview of the law and policies relating to environment both at the national and international level.
2. To critically analyse the implementation of these laws and the role of adjudicatory bodies in the field of environment.

**Course content:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
</table>
| I    | **Introduction:** Environment: meaning and components  
Environment vs Development debates, trigger events, business and environmental law, a brief introduction to SDGs.  
Introduction to environmental laws in India; Constitutional provisions, an overview of the laws General principles in Environmental law: Precautionary principle; Polluter pays principle; Sustainable development; Public trust doctrine. |
| II   | **Forest, Wildlife and Biodiversity related laws:**  
Evolution and Jurisprudence of Forest and Wildlife laws; Colonial forest policies; Forest policies after independence.  
Strategies for conservation—Dolphin, Tiger, Elephant, Rhino |
| III  | **Air and Water Laws**  
National Water Policy  
Pollution Control Boards  
Ground water and law  
Legal framework on Air pollution: Air Act, 1981; EPA, 1986 as amended to date including rules and notifications issued under it. |
| IV   | **Environment protection laws and large Projects**  
Legal framework on environment protection-Environment Protection Act as the framework legislation—strength and weaknesses; EIA.  
Marine laws of India; Coastal zone regulations, Wetland conservation. |
| V    | **Judicial remedies and the role of National Green Tribunal**  
Role of judiciary in environmental protection; Infrastructure projects and the Indian judiciary. |
**Learning outcomes:**
On completion of this course, the students would:
1. Have a strong foundation to undertake specialized courses in the field of environmental laws and policy
2. Develop an inter-disciplinary approach to the issues relating to environment.

<table>

### Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

**Course title:** Tourism And Hospitality Management

**Course code:** AEC-1/SEC-1  
**Credit 5**  
*(there shall be 5 units each consisting of one credit)*

**Course offered in:** Semester- II

**Course description:** The course is designed to enable students to learn various components of tourism and hospitality industry like tour arrangements, transportation, hospitality and travel circuits. This course will enable students to earn required skills needed for self-employment and employment for others.

**Course objectives:** The aim of the course is to provide elementary knowledge of tourism industry including transportation, hotel, destination and future scopes.

**Course content:**

<table>
<thead>
<tr>
<th>Unit</th>
<th>Topics</th>
</tr>
</thead>
</table>
| I    | Introduction:  
Overview of tourism industry. Concept of tourism. Why it is important to study tourism? Scope of tourism and its economic importance. Impact of Tourism. |
| II   | Elements of Tourism:  
| III  | Tour operation:  
Travel Agency and Tour Operator, Travel related documents, Passport, Visa, currency regulations, custom, health regulations, baggage regulations etc. |
| IV   | Transportation:  
Role of transportation industry in tourism, Indian railways and its special trains (Palace on Wheels, Royal orient), airlines operating in India and international. Kind of Taxi and bus/coach services available. |
| V    | Travel circuits:  
Some popular and important tourism circuits in India (golden triangle, desert circuit, Buddhist circuit, sun and sand, back waters etc) and International circuits. |

**Learning outcomes:**

On completion of this course, the students would:

1. Have a strong foundation to undertake specialized courses in the field of tourism and hospitality Management
2. Gain training for self-employment and generate employment for others.

**Assignments: Assignment will be based on Unit I, II, III, IV and V**
# Ability Enhancement Course (AEC) or Skill Enhancement Course (SEC)

**Course title:** Life and Communication Skill Development  
**Course code:** AEC-1/SEC-1  
**Credit 5**  
*there shall be 5 units each consisting of one credit*

**Course offered in:** Semester - II

**Course description:** Acquisition of life skills will empower students to cope with the transitive interactions in personal and professional lives while in an age of communication the curriculum will equip students to develop expertise in the utilities of ICT in the transmission of knowledge.

**Course objectives:**
1. To develop communication skill of students.
2. To develop writing skill of students.
3. To develop expertise in the utilities of ICT in the transmission of knowledge.

**Course content:**
